

NP-F970 Battery User Manual

Overview

The ZILR NP Battery has advanced technology to power your camera or external devices. Never miss a shot again due to low capacity batteries or waiting around for your next charge.

What's in the box

NP-F970 USB-C PD Battery

Product Code

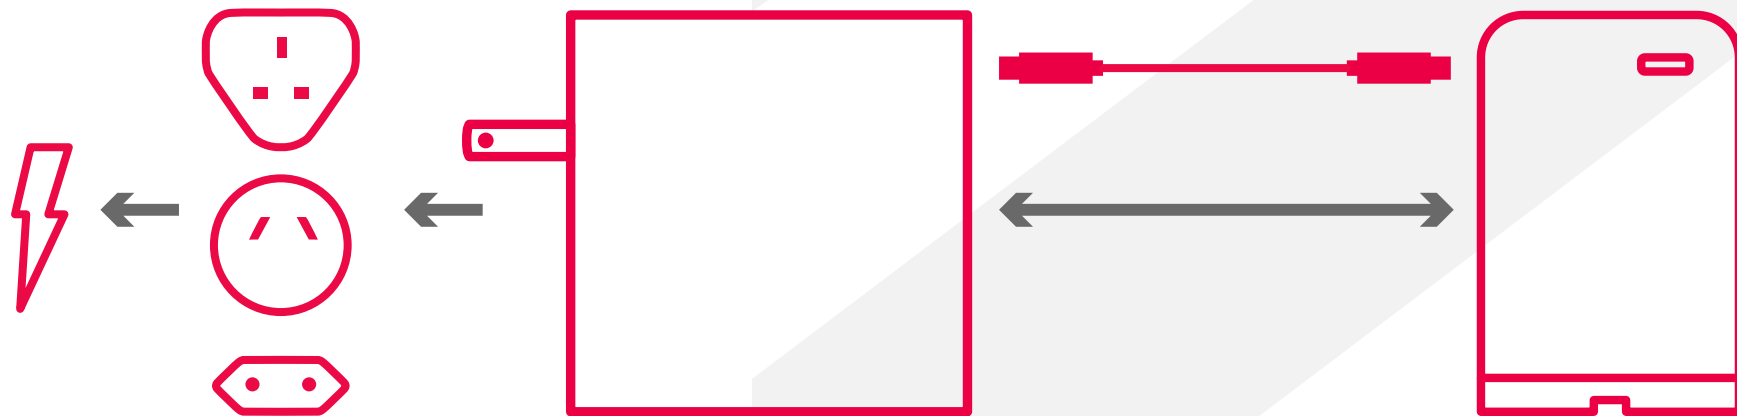

ZRNPB01

Getting Started

Charging the NP-F970 Battery

The NP-F970 battery should be charged using the recommended ZILR USB-C PD Wall Charger (ZRACC01*) and USB-C cable (ZRUCC01*). This will ensure that the battery is charged correctly and supports fast charging via this method.

When using the Wall Charger (ZRACC01*), use the AC international adaptor plug for wall charger that matches your region.

Recommended charging setup

 Do not overcharge. Do not expose the batteries and charger to fire or liquids.

**Sold separately*

LED Charging Indicators

NP-F970 Battery LED Charging Functions

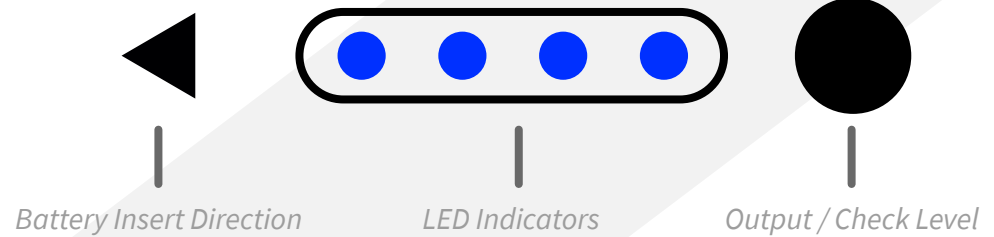

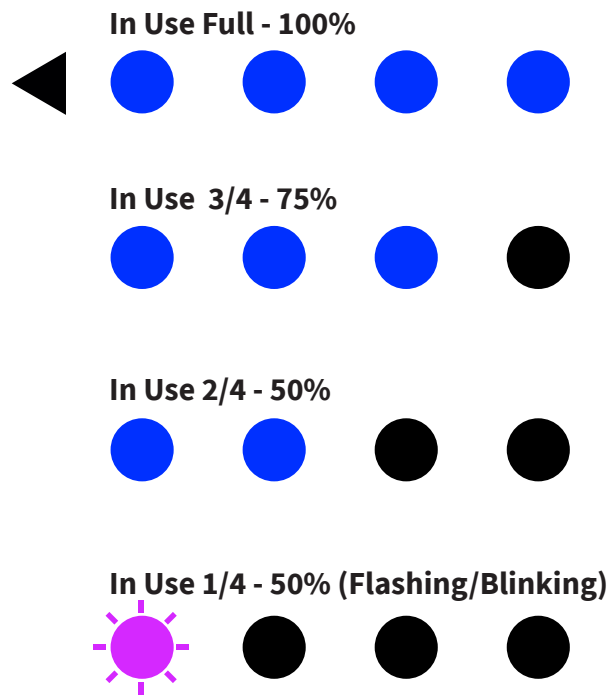

The NP-F970 battery features LEDs to indicate the current charge level.

LED Power Indicators

NP-F970 Battery LED Power Usage Functions

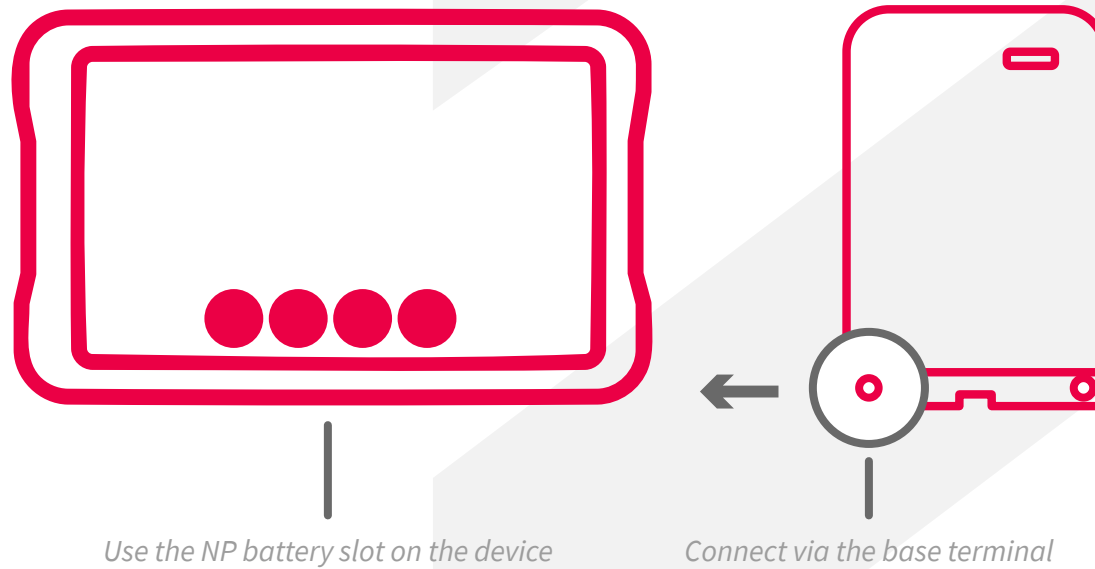

The NP-F970 battery features LEDs to indicate the current power level while in use. Press the Output / Check Level button to view the current level.

Using the NP-F970 on devices

NP-F970 Battery on L-Series Devices

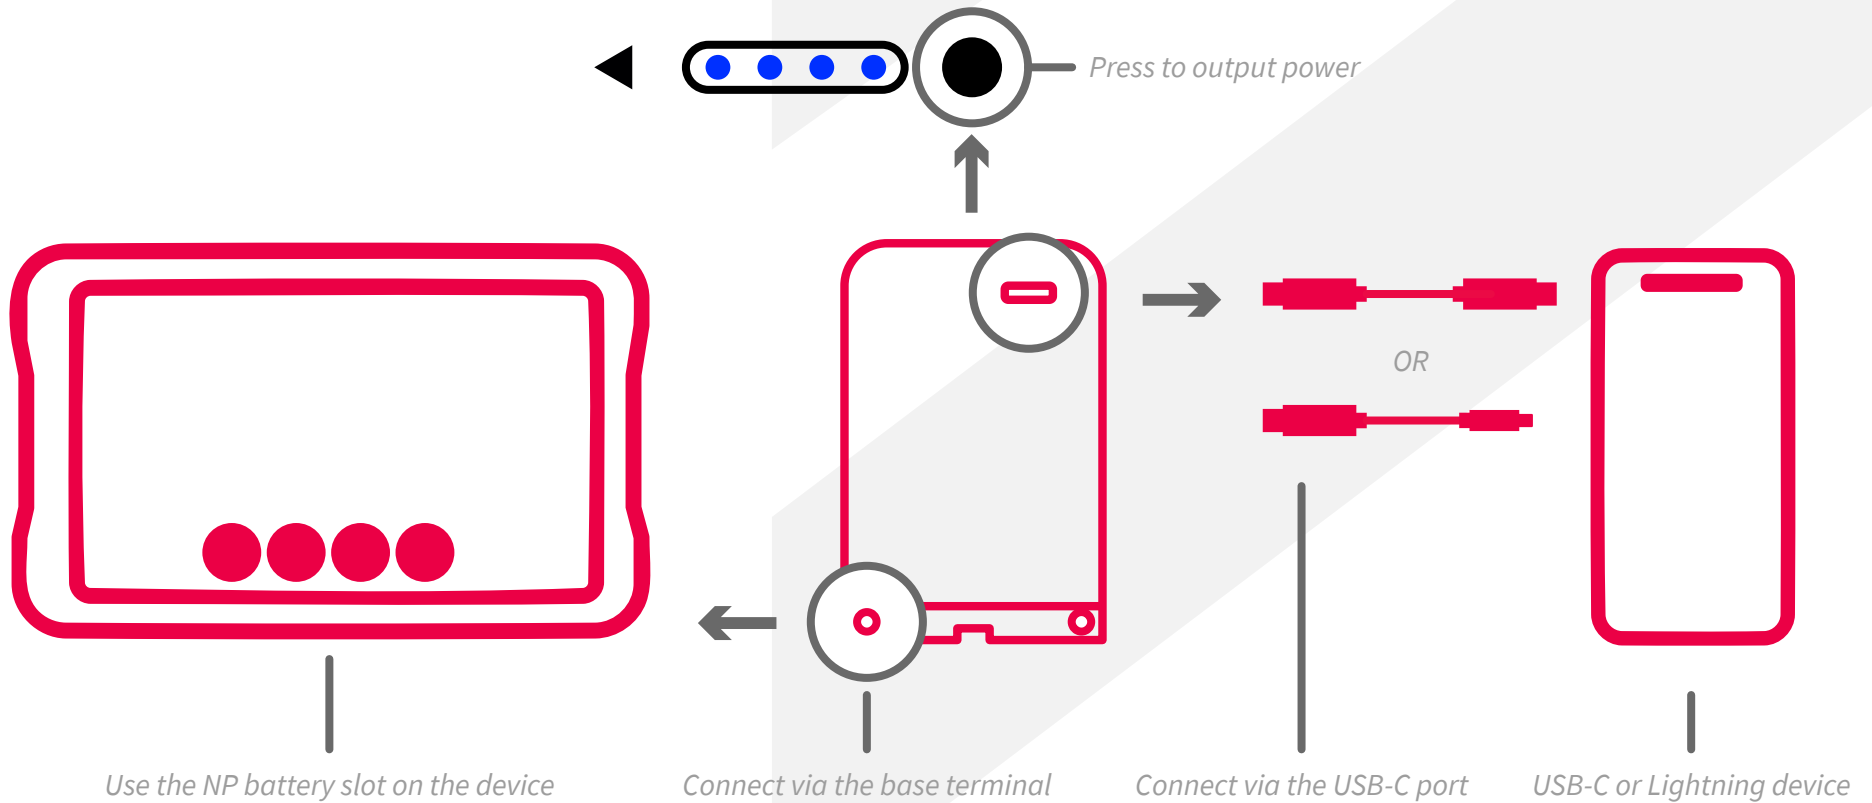

The NP-F970 battery can be used on L-Series devices using the standard 7.4V base terminal.

Using the NP-F970 with two devices

NP-F970 Battery USB-C Output

The USB-C output on the NP-F970 battery can be used to power another device while in use. First connect the battery to the compatible NP battery/L-Series device via the device's slot. Next plug in the USB-C to USB-C cable (ZRUC01*) or the USB-C to Lightning cable (ZRUC01*) to a USB-C or Lightning port on the second device. Press the Output Power button on the top of the NP-F970 battery. The second device will then be powered from the battery.

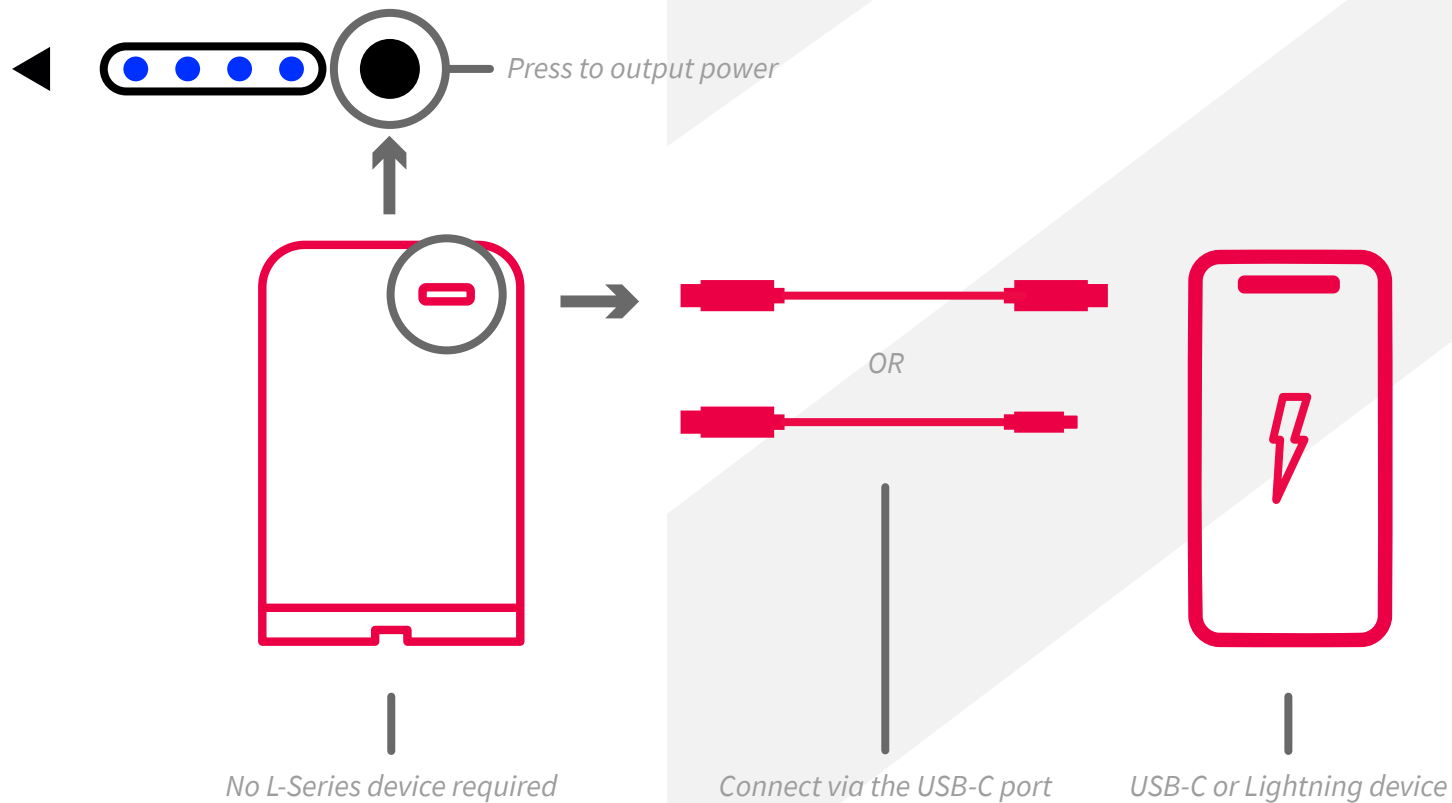

*Sold separately

Using the NP-F970 as a power bank

NP-F970 Battery power bank mode

The NP-F970 also doubles as a power bank, enabling charging of mobiles and tablets. The battery does not require to be connected to a L-Series device for this to work. Simply plug in the USB-C to USB-C cable (ZRUC01*) or the USB-C to Lightning cable (ZRUC101*) to a USB-C or Lightning port on the mobile or tablet. Press the Output Power button on the top of the NP-F970 battery. The device will then be powered from the battery. The device will then charge. It also supports fast charging on devices that support this feature.

*Sold separately
